Subject: APS Rate Increase

APS E-01345A-16-0036
APS E-01345A-16-0123

Commissioner Burns,

I am writing, as an APS electric customer, to ask you to please vote against the proposed APS electric rate increase and increased fees. Since the last rate increase APS stock value has increased by 62% - which is more than the guaranteed Return on Investment - ROI - (10% per year) built into APS monopoly designation. Since they are already making higher ROI than the law requires, they obviously don't need any change made to their current rate structure, which seems to be working very well for them and their shareholders. In lieu of this, I am again asking you to vote NO and instruct APS they need to continue for 5 more years under the existing rate structure with no changes.

Thank you for your time

Glenn France
